Happy Holidays! I hope everyone had a great fall. You are all probably now preparing for the holidays and winter months ahead and it is hard to believe the NYHIMA 2017-18 year is almost half over already.

The Nominating Committee has assembled a great ballot for 2018-19 and I urge all of Active Members to vote. Thanks to everyone who nominated someone and a special thanks to all who are running! Good luck everyone!

The NYHIMA Board has been working to update our bylaws with the retirement of the NYHIMA House of Delegates this past year as well as to reflect the current structure and philosophy of NYHIMA. We are in the process of coordinating and getting AHIMA’s approval and will then be sending them out to you for review and approval. Be on the lookout for them after the New Year.

The Annual Conference Planning Committee has been working very hard to secure speakers and develop the program agenda. It looks to be a GREAT lineup with something for everyone. NYHIMA's Central Office has created the conference logo and we'll be starting to send out information on the Conference very soon. Don't forget to hold the dates - June 3-6, 2018 at the Sagamore Hotel on beautiful Lake George, New York.

The Legislative (Advocacy) Committee is busy researching what other state associations are doing to prepare an Advocacy Agenda for next year. Our Advocacy Committee Chair Peggy Presbyla, was recently interviewed by the health information management publication, “For The Record.” They were looking for a response to New York State eliminating fees for requests for patent records who are seeking disability benefits.

The Communication and Membership Committees are working together on a NYHIMA awareness campaign and will be reaching out to AHIMA NYHIMA members and students to share the benefits of being a NYHIMA Dues Paying Member. One way is through the GREAT educational programs that the Education Committee puts on each year so check them out! NYHIMA Dues Paying Members get great discounts.

On behalf of the NYHIMA Board, we would like to wish everyone very Happy Holidays and the best for the New Year!

Sincerely,

Kim

RRHIMA Member Spotlight: Donna Rugg, RHIT, CDIP, CCS, AHIMA approved ICD-CM/-PCS Trainer

Donna Rugg's decision to enter the Health Information Management profession started with a look through the Monroe Community College (MCC) catalog and a visit to the HIM department at Strong Memorial Hospital (SMH). She had a conversation with the HIM Director at SMH, which led her back to MCC where she enrolled in the program then known as "Medical Records Technology" in 1976.

She successfully completed the program in 1978, graduating with an Associate's Degree in Applied Science - Medical Records Technology. In the years following her graduation, Donna has gained valuable experience (and a great deal of respect from her peers!) and has met many talented HIM professionals!

Cybersecurity guidance targets medical records strategies

New guidance from the American Health Information Management Association offers 17 steps toward building a comprehensive cybersecurity plan that addresses not only the information technology department but a range of other stakeholders.

The effort aims to increase organization-wide awareness of security weaknesses and to reassess information management strategies that put data at risk.

"Governance of information shifts the focus from technology to people, processes and the policies that generate use, and manage the data and information required for care," says Kathy Downing, director of practice excellence at AHIMA with 15 years of experience in HIM and as a privacy officer in provider facilities.
